# HERE AT SKYDIVE AUSTRALIA, WE DON'T LIKE ORDINARY, WE EXPECT EXTRAORDINARY..

*And your team deserves the best of the best!*

Still bruised from the last paintballing mishap? Did 'group bonding' turn into 'team turmoil' in the last escape room? Or have you just made one too many lopsided clay pots at the local ceramics centre?

## **Give your team something they will never forget (or regret!)**

Our crew are ready to assist you in making your group event stand out from the others. Whether you're holding a fundraising event, organising a group bonding activity, celebrating a Christmas party, special occasion or because you want to be the world's best boss, our experienced team are waiting for you at 15,000ft!

# BENEFITS OF TAKING YOUR TEAM SKYDIVING

*(Besides bragging rights of course)*

## Building Trust

Skydiving requires trust in the equipment, the instructors and each other. Participating in such an exhilarating experience can help build trust and confidence among team members. Supporting each other during the experience can enhance teamwork and collaboration.

## Reducing Stress and Anxiety

Skydiving can be an incredible stress reliever. The adrenaline rush and the sense of accomplishment could help your team let go of work-related stress and improve overall well-being.

## Overcoming Fear

Overcoming your fears can be empowering. It can demonstrate that your team as a whole can overcome challenges and fears when they work together.

## Celebrating Achievements

Celebrating the successful completion of something as thrilling as a skydive can foster a sense of achievement and celebration within the team, reinforcing the idea that hard work and collaboration lead to success.

# CUSTOMER STORY

## Athletic Culture

### They could lift heavy, but could they push their limits?

Owner of Athletic Culture, came to Skydive Australia with the goal of having an epic day out with his team, as well as promoting personal growth and encouraging his staff to support one another as a team.

His primary objective was to push his team out of their comfort zones (literally!) and escape the demands and pressures of their busy gym.

“My coach’s are used to being leaders and having control of the situation; This entire experience took that away from them and they were forced to put all their faith and trust into another human and let go. Sitting on the side of the aircraft and looking down at my hometown at 15,000ft was a lot to digest. I have to admit, I was s#!tting myself and although it wasn’t too late to pull out, I knew I couldn’t let myself, and the team down. I took a deep breath and the next minute I was falling and had no control of what was going to happen next. All I could do was go along for the ride and try and take in what was happening. That 1 minute felt like an eternity and I didn’t think about anything else... I was well and truly in the moment.”
